News & Resources

Opportunity for individuals with memory loss and their caregivers

Aging with Pride: IDEA (Innovations in Dementia Empowerment and Action) at the University of Washington is offering free programs for individuals with memory loss and their care partners. Either the person with memory loss or their care partner must be LGBTQ. Programs include nine sessions with a trained coach and focus on problem solving,

or their care partners. Either the person with memory loss or their care partner must be LGBTQ. Programs include nine sessions with a trained coach and focus on problem solving, skill building, and low-impact exercise. Programs are virtual, using easy video chatting. Participants don't have to leave home to participate and are paid \$25 for each phone interview completed. This study is being done in California, Oregon, and Washington.

Good news from the 2020 election

More than one thousand LGBTQ individuals ran for office in 2020, with more than 570 appearing on the November general ballot. At least 220 of these candidates have already won their races, including several genderqueer or nonbinary candidates and others who are their state's first transgender legislator. One-third of the LGBTQ candidates are people of color.
